

## SSI SPECIALTY: **PHOTO & VIDEO**

"By the time diving was difficult, photography was also difficult."

Today these facts have changed completely. Now diving and photography with a digital camera system have become very easy.

Many of you may already have a digital camera system and a proper underwater housing. As such, it's likely you are asking yourself how to take better pictures. Now a structured program is available to answer your digital underwater photography questions which means more fun and satisfaction in diving.

The DIGITAL UNDERWATER PHOTOGRAPHY Program can be learned in the pool/confined water or directly in the open water. This makes this a perfect "winter specialty" which can be done just before your diving holiday starts.

If you want to learn more about DIGITAL UNDERWATER PHOTOGRAPHY, you can buy the manual or the DVD even if you don't want to sign up for the course.

## Course Content:

- **Your Entry to the Underwater Photography**
- **Your Digital Camera System**
- **Using your Camera System**
- **Taking digital pictures underwater**
- **Composition of your underwater pictures**
- **Editing your digital pictures**

The primary goal of any SSI Specialty course is to teach you important skills in a fun environment. All courses are taught using home study, short academic sessions, and in-water training.

Combine other specialties while taking the DIGITAL UNDERWATER PHOTOGRAPHY course! PERFECT BUOYANCY or SHARK DIVING are great add ons. The possibilities are limitless!
